How it works

Create a Learner Profile:

Start by sharing details about your child, including their learning goals and the subjects in which they need support. This information helps us better understand your child's unique needs and allows us to tailor our recommendations accordingly

Choose the Right Plan

Based on the profile, we'll suggest the plan that best fits your child's learning goals. This ensures you get the most out of our services with a plan that fits your requirements.

Get Matched with an Expert Tutor:

Our sophisticated algorithms analyze the profile and match you with the most compatible tutors.

Start Learning:

Once matched, your child begins tutoring sessions in Reading, Writing, English, Math, and Science, progressing at their own pace with ongoing tutor support..
